- By Cheque : Payable to **"Sasana Education Sdn Bhd"**
- By Bank Transfer : Account Number 3203 413 629 (Public Bank)

Sasana Early Childhood Education

Let the Children Be Children

Sasana Early Childhood Education nurtures the whole child—head, heart, and hands—through imaginative play, daily rhythms, and a warm, home-like environment. Teachers guide through example, not direct instruction, allowing children to learn naturally through imitation and exploration.

Formal academics are gently delayed, giving space for social-emotional development, creativity, and confidence to grow. Rich storytelling, handcrafts, and nature play build language, coordination, and connection to the world.

This gentle, play-based approach fosters emotional intelligence and resilience, laying the foundation for a lifelong love of learning.

Sasana honors childhood as a sacred, wonder-filled time of growth and becoming.

Play, and more play

In a Waldorf world where wonder leads the way,
Children laugh, build, climb, and sway.

No rush, no race—just time to be,
With sticks and stones and climbing trees.

A silken cloth becomes a cape, A wooden block a sailing drape.
A pinecone talks, a pebble sings— Imagination grows its wings.

Rhythms hold them, gently guide, In stories told and songs beside.
The hands are busy, hearts are light, In play from morning until night.

So let them play, and play once more— It's not "just play"—it's learning's core.
The soul expands, the senses wake, In every cake they "bake" and lake they "make."

Sasana Early Childhood Education Center (ECE), established in 2016, is housed in two Semi-D homes in Bandar Tasik Puteri, offering a warm, spacious, and home-like setting for young children.

With generous outdoor play areas and hands-on activities, children grow through play, nature, and gentle daily rhythms guided by experienced teachers.

We are part of the Sasana Education community, which includes Sasana International School—providing a nurturing and continuous learning journey from early childhood through the school years, all under one vision of purposeful, child-centered education.

***"Play is the highest form
of research"***
Albert Einstein
